**101. MANDATORY STUDENT FEES (Board of Regents {BOR} Policy 7.3.2.1)**

Mandatory student fees are defined as fees which are paid by all students as required by the Board of Regents or as assigned by the institution subject to approval by the Board of Regents. All mandatory fees shall, but not be limited to, intercollegiate athletic fees, student health services fees, transportation or parking fees (if the latter are charged to all students), student activity fees, technology fees, and facility fees. (BoR Minutes, January 2010) All mandatory fees shall be approved by the Board of Regents at its meeting in April to become effective for the following fall semester. Exceptions to this requirement may be granted upon the recommendation of the Chancellor and the approval of the Board of Regents.

101.1 An institution may waive mandatory fees for students who are enrolled for fewer than six (6) credit hours. Alternatively, institutions may prorate mandatory fees on a per-credit-hour basis for students taking fewer than twelve (12) credit hours. Institutions may elect to reduce Board-approved mandatory fees for students enrolled in summer courses.

101.2 Proposals submitted by an institution to increase mandatory student fees and proposals to create new mandatory student fees shall first be presented for advice and counsel to a committee at each institution composed of at least fifty percent (50%) students, except in special circumstances when a general purpose fee is instituted system-wide by the Board of Regents (BoR Minutes, June 2009). The committee shall include at least four students, who shall be appointed by the institution’s student government association. Institutions and student government associations should make a concerted effort to include broad representation among the students appointed to the committee (BoR Minutes, January 2010).

101.3 All mandatory student fees collected by an institution shall be budgeted and administered by the president using proper administrative procedures, which shall include the advice and counsel of an advisory committee composed at least fifty percent (50%) students, except in special circumstances when a general purpose fee is instituted system-wide by the Board of Regents (BoR Minutes, June 2009). The committee shall include at least four students, who shall be appointed by the institution’s student government association. Institutions and student government associations should make a concerted effort to include broad representation among the students appointed to the committee (BoR Minutes, January 2010).

101.4 Mandatory student fees shall be used exclusively to support the institution’s mission to enrich the educational, institutional, and cultural experience of students (BoR Minutes, January 2010). All payments from funds supported by student mandatory fees shall be made according to approved business procedures and the appropriate business practices of the institution (BoR Minutes, 1999-2000, p. 364).

101.5 The allocation and expenditure of student activity fees shall be determined by the college Student Activity Fee Budget Committee. Unexpended and unallocated funds remaining at the end of a fiscal year shall be carried over and remain in the SAF fund. The balance in the unallocated fund will be available for allocation and expenditure during the next fiscal year.

101.6 Board of Regents statutes establishes that the President of the College has final veto authority over all SAF. The statute provides that the President may veto any line item or portion thereof within the budget. All unexpended SAF funds are subject to similar final College presidential authority (BOR704.021).
102. PURPOSE AND SCOPE

102.1 The Deans of Student Services and the Directors of Student Life define the Financial Codes which outline the responsibilities, provisions, and penalties related to the use of student activity fees at Georgia Perimeter College (GPC). 123. BUSINESS PRACTICES

Business Practice Addendum to the Student Activity Fee Financial Code

The preferred method of payment for merchandise and services purchased with student activities fee funds are 1) Payment Requests; 2) Payment Requisition Forms; 3) Petty Cash.

123.1 Payment Requests: To assure the timely approval of a payment request, please submit all required paperwork with the appropriate budget manager’s signature at least two (2) weeks in advance.

123.2 Payment Requisition Forms: For processing purposes, payment requisition forms must be signed by a designated Dean of Student Services, Student Life Director, Budget Manager, or their appointed designee. To assure a timely delivery of merchandise order by means of a Requisition Form, please allow up to four weeks for delivery.

123.3 Petty Cash: This method of direct payment is coordinated through the Student Accounts Office. Please note all Petty Cash transactions have a set limit of $100.00.

123.4 P-Cards: The use of a department’s Purchasing Card to purchase items for sanctioned events is viewed as an acceptable method; however, this particular method of payment does create unique auditing challenges. Due to this fact, we encourage advisors and budget managers to consider the use of a department’s Purchasing Card as the last method of payment.

The tracking of account activities will be the responsibility of the club or organization advisor or his/her appointee.

*Please refer to the Georgia Perimeter College Business Procedure Manual for policies and procedures that govern the payment methods.

123.5 Budget Reconciliation: The Student Activity Fee Shadow Budget spreadsheet should be used to record expenditures and incomes of clubs and organizations. A copy of the spreadsheet must be submitted quarterly to the SAF Dean, Budget Manager, or their designee. A schedule of deadlines to submit the shadow budget spreadsheet will be distributed at the beginning of the academic year.

The supplier must exercise ordinary care to determine that the tangible personal property obtain under this certificate is for the purpose indicated. Suppliers failing to exercise such care will be held liable for the sales tax due on such purchases. For example, a supplier cannot accept a Certificate of Registration number bearing a “214” prefix since this was issued to a Contractor which has been deemed to be the consumer and is required to pay the tax at time of purchase.
OPEN PURCHASE ORDER PROCEDURE (OPO)

An Open Purchase Order (OPO) is an order to buy unspecified supply items or services as needed. It is intended to eliminate small repetitive requests for expendable supplies, material or services by allowing multiple pickups and billings on one order. A specific amount of funds is encumbered for a specified length of time for this purpose. The total amount of an OPO cannot exceed $9,999.99 (including all change orders), and can be effective any dates between July 1 and May 31 of the same fiscal year.

Restrictions placed on OPOs are:

1) No individual purchase can exceed $2499.99
2) No single item purchased can exceed $499.99
3) Items must be picked up by user or delivered directly to user
4) Items that cannot be purchased are:
   * Equipment that cost $500 or more
   * Hazardous or radioactive material
   * Items covered by mandatory State source
   * Items provided by in-house departments
   * Dues, registration fees, travel or related items
   * Personal use items, such as radios, coffee pots, gifts
   * Telecommunication items of any type or value
   * Postage stamps
   * Firearms or explosives
   * Services involving an employer/employee relationship
   * Items subject to Library control
   * Holiday decorations or cards
   * Plants or cut flowers for office use
   * Typing services

The user is responsible for resolving all disputes with the vendor over shipping, pricing, damaged goods, etc. In the event that a solution is not achieved, Purchasing may be called upon to help.

All OPOs will be canceled on June 1 of each year by Purchasing. Invoices received after the cancellation date must be paid under a separate purchase order.

Departments that continuously abuse the open order procedure will have their open order privilege revoked.

NOTE: Departments are reminded that the entire amount of the purchase order is encumbered immediately and, therefore, is not available for other use.

Procedure

1) User confirms that recommended vendor will accept a Georgia Perimeter College Open Purchase Order (OPO), and completes a Request for Supplies or Services (RSS) form, including:
* "1 Lot" as the quantity and unit
* A general description of items or services to be purchased proceeded by "Open PO for...."
* Effective dates (from/to) of the open order
* State User names

2) User sends completed RSS form to Purchasing.

3) Purchasing issues a purchase order number.

4) Department uses this purchase order number to place orders directly with vendor.

   * Department faxes or phones in order.
   * Department picks up order or has vendor deliver the order directly to the user.
   (Orders cannot be sent through Central Receiving.)

5) Department has vendor send invoice directly to the user for approval.

   * User acknowledges receipt of the items and approves the cost by signing and dating the invoice. (Purchasing recommends that a stamp with appropriate information blocks be used. See example on invoice.)

   * User forwards 2 copies of invoice (original and copy) to the Purchasing Office for auditing and approval. Purchasing will then forward invoice to Accounts Payable for payment.

   * User can add or delete funds to the OPO by sending a memo or E-mail request to Purchasing before the expiration date or the $9,999.99 limit has been reached.

Expiration dates will not be extended. User **must** submit a new request for another OPO. A field Purchase Order Correction (FPOC) will not be done for an OPO, a new OPO should be requested. At month end, if you are close to the total amount of the OPO, close that one and request another one.

**Stamp** should read:

I certify that the items or services received are the same specifications, quality and quantity as ordered on PO#________________, dated________________.

PURCHASE ORDER CORRECTIONS

> Determine that a correction to a previously issued Field Purchase Order (FPO) is necessary.

> An FPOC must be issued if there is a price increase or decrease of more than $500.00 per line item or if you wish to cancel a Field Purchase Order (FPO). The cumulative total of all FPOC’s issued to an order should not exceed 20% of the grand total of the original FPO.

> Corrections are basically required to resolve significant differences between orders and invoices.

> Purchasing has the latitude to issue corrections when not required by State policy, if decided it is in the best interest of the Agency or is required by internal procedures.

> When specifications of the item delivered are not the same as the FPO specifications, an FPOC is required. In such cases, the Purchasing Department must assure that the changed specification meets or exceeds the original specifications.

> The department may cancel an FPO or approve a price increase or decrease; however, you MUST send in writing to the Purchasing Department and give the reason for the increase or cancellation.

> Purchasing will issue an FPOC to the company. The department will receive a copy of the Field Purchase Order Correction (FPOC); it should be attached to your department copy of the FPO and request for your records.

INTRODUCTION

While institutions of the University System shall be guided by general travel regulations set forth in Business Procedures Manual, Volume I, Revised, these policies incorporate certain specific regulations and limitations particular to the employees of Georgia Perimeter College.

In requiring employees to travel in the performance of their duties, Georgia Perimeter College will reimburse those employees for reasonable and necessary expenses that are incurred while traveling away from their official headquarters and places of residence. In cooperation with regulations promulgated by the State Auditor’s Office, the Office of Planning and Budget and the Board of Regents, Georgia Perimeter College has adopted the following regulations regarding travel of employees on official business of the University System. It is believed that these travel practices will protect the best interest of the employee and Georgia Perimeter College.

TRAVEL AUTHORIZATION

Prior Approvals - Employees required to travel in the performance of their official duties and entitled to reimbursement for expenses incurred shall have prior authorization from their immediate supervisor and the College Budget Office for the performance of travel. A specific authorization is required for those individuals who are required to make occasional trips. Specific authorization shall be in such form as to indicate the itinerary, the estimated cost of travel, the mode of transportation, and the general purpose of travel. The Prior Approval form must be completed with all required signatures ten working days prior to the anticipated travel. Out of Country travel must be approved by the Vice President.

In the case of individuals required to travel on a regular basis, i.e., local travel, approval may be in the form of a standing authorization prepared on an annual basis. Local travel will be defined as day-to-day trips within the metro Atlanta area that do not require the payment of registration fees. A specific travel authorization for local travel will be necessary when registration fees are required.

SUBSISTENCE (MEALS AND LODGING)

Reimbursement claims for subsistence (meals and lodging) are to be reported on travel expense statements by date, location, and amount for each meal and lodging claimed. An individual taking annual leave while away from headquarters on official business is not entitled to subsistence for the period of the leave. With certain exceptions, reimbursement for subsistence within a 50-mile radius (or the county) of a person’s home office or residence is not allowable. Out-of-state travel expenses for meals and lodging may exceed the following limits for travel within the state, but they should be reasonable and any unusual amounts should be justified.
High Cost Area

Employees traveling in high cost areas may be entitled to meal reimbursement exceeding $28.00 per day. The Federal Per Diem Rates will be used to identify high cost areas. High cost areas within the State of Georgia are as follows: Atlanta - $36; Brunswick - $36; Jekyll Island - $36; Savannah - $36; and St Simons - $36. (Breakfast $7.00, Lunch $9.00 and Dinner $20.00)

1. Meals

Reimbursement will be made on the per diem amount based on eligible meals only. Expenses for three meals at a rate of not more than $28.00 per day, including taxes and tips, is allowed. Reimbursement of claims for fewer than three meals per day should be evaluated in terms of the daily limit and is left to the discretion of each institution. In normal circumstances it is expected that dinner should cost more than lunch and lunch more than breakfast. Reimbursement for tips will be allowed according to the Attorney General’s Opinion 70-28 dated March 6, 1970; tips should be included in the price of each meal.

Meal Expenses Associated with Overnight Travel

Employees traveling overnight may be reimbursed for the actual cost of meals, within the maximum limits established in these travel regulations. Limits are based on the length of day that an employee is officially on travel status. The following limits apply to meal reimbursement.

<table>
<thead>
<tr>
<th>Meal</th>
<th>Allowance</th>
</tr>
</thead>
<tbody>
<tr>
<td>Breakfast</td>
<td>$6</td>
</tr>
<tr>
<td>Lunch</td>
<td>$7</td>
</tr>
<tr>
<td>Dinner</td>
<td>$15</td>
</tr>
<tr>
<td>Total</td>
<td>$28</td>
</tr>
</tbody>
</table>

Generally, employees who travel overnight should not be reimbursed for three full meals on the day of departure or return. The following guidelines apply to reimbursement of meal expenses for these days: Employees may only be reimbursed for the meals purchased while officially on travel status. (For example, if an employee departs at 3:00 p.m., the employee should not claim breakfast or lunch expenses for the day of departure.) Employees may be reimbursed for meal expenses incurred with the 50-mile radius, provided the travel destination is more than 50 miles.

Employees who depart for an overnight trip prior to 6:30 a.m. are entitled to reimbursement for breakfast expenses, provided an expense was incurred. Employees who return from an overnight trip later than 7:30 p.m. are entitled to reimbursement for dinner expenses, provided an expense was incurred.

Employees traveling outside Georgia should make every effort to remain within the meal limits described in these travel regulations. However, employees may experience some high cost areas which cause the employee to exceed the authorized meal expenses. Employees who experience this situation should refer to the Federal Per Diem Rates. This listing should be used as a guide to determine appropriate meal expenses for various cities throughout the United States. Meal expenses associated with travel to high cost areas should be approved prior to the trip.

Meal Expenses NOT Associated with Overnight Travel

Employees who are required to travel for their job and do not stay overnight may be reimbursed for certain meal expenses under the following situations:
Employees acting as an official representative for their institution may be reimbursed for meals which are an integral part of a scheduled, official meeting. Reimbursement is only authorized, however, if the meeting is with persons outside the employee’s department and if the meeting continues during the meal. Employees cannot be reimbursed for meal expenses if they leave the premises of the meeting site.

Employees may be reimbursed for noon meals if the meal is a scheduled part of an intra-institutional meeting or training session (i.e., the meeting or training session continues during lunch and the employees do not leave the premises of the meeting site). Reimbursement is only authorized; however, if the meeting or training session was previously approved by the appropriate official, equaled or exceeded six hours in length, and was held more than 50 miles from the employee’s office. Reimbursement for the meal expenses may be documented by a copy of the formal written agenda.

Employees may be reimbursed for noon meals that are part of required registration fee.

Employees who are more than 50 miles away from home or headquarters on a work assignment and are away for more than 13 hours may be reimbursed for meals, even when there is no overnight lodging. In this situation, employees are entitled to reimbursement for the noon meal. In addition, employees who depart prior to 6:30 a.m. are entitled to reimbursement for breakfast expenses, and employees who return later than 7:30 p.m. are entitled to reimbursement for dinner expenses. Employees, who are more than 50 miles away from home or headquarters on a work assignment and depart prior to 5:30 a.m., are entitled to reimbursement for breakfast expenses, even when there is no overnight lodging. Employees who are reimbursed for any of these circumstances are still expected to remain within the authorized meal limits. Expenses which exceed the authorized amounts should be explained on the travel expense statement. Individuals responsible for approving travel expenses should review these explanations to determine whether the higher costs are justified and allowable.

Meal Expenses Incurred While Taking Leave - Employees who take annual leave while on travel status may not be reimbursed for meal expenses incurred during the period of leave.

Required Documentation of Meal Expenses

All meal expenses must be itemized on the employee travel expense statement, indicating the date, location, and the actual cost of each meal. Taxes and tips are also reimbursable; however, they should be included in the total meal cost subject to the authorized limits. Receipts for meals are not required. However, expenses which exceed the authorized meal limits should be explained on the expense statement. Individuals responsible for approving travel expenses should review these explanations to determine whether the higher costs are justified and allowable.

2. Lodging

Employees who travel more than 50 miles (and outside the county) of their home office, residence, or headquarters may be reimbursed for lodging expenses associated with overnight travel.

Employees will be reimbursed for the actual lodging expenses, provided the expenses are reasonable. Each agency may establish its own policy regarding the maximum reasonable rates for overnight lodging.

It is expected that reservations will be made in advance whenever practical, that minimum rate accommodations will be utilized, that "deluxe" hotels and motels will be avoided, and that commercial rates will be obtained whenever possible. Many hotels and motels grant commercial
rates upon request to State employees who show identification. These rates may be exceeded, but must be justified, if an employee stays at a higher cost hotel where a meeting is held in order to avoid excessive transportation costs between a lower cost hotel and the location of the meeting, or for the safety of the individual.

Authorization for Lodging within the 50-Mile Radius

On occasions, institutions are required to sponsor conferences, trade shows, and other functions which require personnel to work at the event. In many cases, the persons planning and coordinating the event reside or work less than 50 miles from the schedule meeting site. The Budget Office must approve overnight travel for such persons who are coordinating institution sponsored events, provided the affected employees are required to begin work within nine hours of completing the previous day’s activities. In addition to mileage, affected employees may be reimbursed for meals and lodging in accordance with the provisions of the Travel Regulations.

The following information is required for GPC Budget Office approval: name of the employee, date and purpose of the event, responsibilities at the event, and the approval of the immediate supervisor. Authorization for such travel must be done in advance of the scheduled event.

It should be noted that this provision only applies to conference and other institution sponsored events that occur. This provision does not authorize persons to claim travel reimbursement for activities which are part of their normal responsibilities. In addition, this provision would not apply for persons who are required to attend evening meetings as part of their normal responsibilities.

Georgia Excise Tax - Section 48-13-51 of the Official Code of Georgia Annotated exempts Georgia state or local government officials or employees traveling on official business within the State of Georgia from paying the county or municipal excise tax on lodging. However, sales tax should continue to be charged since the payment of hotel or motel bill by employees is not considered to be payment directly by warrant on state appropriated funds. This tax exemption should be explained at the time reservations are made.

Some difficulty may be encountered in communicating with the hotel or motel that state employees are exempt from the excise tax. The Georgia Excise Tax Form should be presented to the hotel or motel to provide documentation that the identified employee is on official state business and qualifies for exemption. For your convenience, the form will be provided when the Prior Approval for Travel is returned to the department. The form can also be printed from the GPC web site. It should be noted that the provisions of this exemption only apply to lodging expense incurred while traveling on official business and that any personal lodging expense (even if incurred at the same hotel or motel, before or after the official business related travel) would not qualify for the exemption.

If the hotel refuses to accept the tax-exempt form at check-in, the employee should attempt to resolve the issue with the hotel management before checking out at the end of their stay. If the matter is not resolved by the time the employee checks out, the employee should pay the tax. The employee should explain the payment of the tax as an unusual expense on their travel expense statement.

Shared Lodging - When a room is shared with other college employees on travel status, reimbursement will be calculated on a pro rata share of the total cost; however, when a pro rata share of lodging cost is claimed, the expense statement must show the name or names or the employees with whom the room is shared. The simplest method would be for each employee to ask for a separate bill for his share of the room cost. An individual on travel status accompanied by husband, wife, or other individual who is not an employee on travel status will only be entitled to reimbursement at the single room rate.
TRANSPORTATION

1. Vehicle Use Regulations

A traveler will be authorized to choose between a personal vehicle and common carrier after careful analysis of the distance, timeliness and overall costs of a trip. Reimbursement for the most economical mode of transportation, consistent with the purpose of the travel, will be authorized. Use of a private aircraft will be left to the discretion of the Executive Vice President of Financial and Administrative Affairs.

Reimbursement for transportation expenses incurred when using personally owned vehicles will be at the legally authorized rate per mile for the actual number of miles traveled in the performance of official duties. Effective April 1, 2008, the mileage rate is $0.505 per mile, February 1, 2007 thru March 31, 2008 the mileage rate is $0.485 per mile. The initial point of departure during an employee’s normal workweek shall be the individual’s residence or headquarters, whichever is nearer the destination point. The initial point of departure on weekends or holidays, however, should be the individual’s actual point of departure. No transportation costs will be allowed between an employee's place of residence and his official headquarters. Reimbursement will not be allowed for expenses other than those incurred by the employee on travel status. Payments to friends or other individuals will not be allowed. Employees should attempt to travel together when applicable.

(TRAVEL TIP – For travel directions, maps, and actual mileage check out the Internet address www.mapquest.com.)

Actual odometer readings will be reported; however, personal mileage will be excluded in determining the mileage for which reimbursement may be made. Claims exceeding mileage computed by the most direct route from the point of departure to the destination (due to field visits, picking up passengers, etc.) must be explained on the Travel Expense Statement.

Campus Mileage - An employee on required College business will be reimbursed for local mileage provided these miles are in excess of the daily commute between home and office. It is not necessary to include odometer reading on campus-to-campus mileage. Reimbursement for local campus travel will be limited to the following:

Claim for local mileage must show points visited and the return location. A point-to-point explanation is required.

Parking/Tolls - The authorized mileage rate is to include the normal expenses incurred in the operation of a personal vehicle. In addition, parking and toll expenses will be paid for official travel in a personal or state vehicle. (Low-cost long-term parking or automobile storage should be used.) Receipts for parking and toll expenses should be provided when possible; if not available, a written explanation must be made on the expense statement.

Rental Vehicles - Use of commercially leased vehicles will be left to the discretion of the supervisor and must be approved prior to departure. Commercially leased vehicles should be obtained from the state contracted rental agency according to the conditions of the State Contract http://ssl.doas.state.ga.us/PRSapp/PR_StateWide_contract_menu.jsp (No. S-030293 Automotive Rental). Employees will be reimbursed for costs associated with official use of such vehicles. Personal accident insurance on rental vehicles is not reimbursable. Employees who are able to obtain lower rates through other companies should use these other companies to rent their vehicles.

State Vehicles - Employees traveling in state vehicles (from the state motor pool) should purchase gas at state owned facilities when feasible. All such purchases should be made with a state credit card.

Ride Share - Employees sharing a ride with another state employee using either a state or personal vehicle, and not claiming reimbursement for mileage, should indicate in the automobile record section of the expense statement the name of the person they rode with and the dates of the trips. Those utilizing state owned aircraft should also indicate such as a mode of transportation.

2. Commercial Air Transportation

Employees should utilize commercial air transportation when it is more cost effective and efficient to travel by air than by vehicle. Employees who require air travel should obtain the lowest available airfare to the specified destination, which may include the use of the Internet, a travel agency, or the State airfare contract. Information on State contracted rates are available at the web site http://ssl.doas.state.ga.us/PRSapp/PR_StateWide_contract_menu.jsp (No. S-030643 Airfares). It should be noted that employees are not required to use the statewide contract when lower fares can be obtained through another airline. The contracted airline should, however, be offered the opportunity to meet the lower fare. Employees are also not required to use the statewide contract if the contracted flight is not non-stop and the contracted flight would cause the employee undue hardship or would conflict with the employee’s schedule. (TRAVEL TIP - Check the Internet at www.orbitz.com, www.airfares.com, etc. for flight options and prices. If you find a
lower fare than a quote received from American Express, give them the flight numbers and see if they can meet the price.)

Reimbursement will be made upon presentation of a ticket stub, receipts, or other documentary evidence of expenditure via the Travel Expense Statement upon completion of the trip. According to law (1978 S.B. 73, Act 1369), officials or employees traveling by commercial air carrier will not be reimbursed for that portion of non-coach (first-class, business class) air fare which exceeds the cost lowest fare for the flight on which such official or employee is traveling unless: space is not otherwise available; a licensed medical practitioner certifies that because of a person’s mental or physical condition specific air travel arrangements are required; the Commissioner of Public Safety certifies that specific air travel arrangements are necessary for security reasons. Prior written approval by the Executive Vice President for Financial and Educational Affairs is required on the above exceptions.

**Upgrades to Non-Coach Travel** - State officials or employees may, at any time, use personal frequent flyer miles or similar programs to upgrade to non-coach travel. In addition, nothing in this policy shall preclude a state official or employee from personally paying for an upgrade to non-coach travel.

For purposes of conducting official state business, state officials or employees may negotiate or arrange for upgrades to non-coach travel with individual commercial carriers if:

The flight is international and over five hours in duration, and the carrier agrees not to charge any additional cost to the state.

**Indemnification Received Due to Travel Inconveniences Imposed by Airlines** - Occasions may arise when airlines overbook, change, delay or cancel flights, thereby imposing travel inconveniences on their passengers. In these instances, airlines often offer the impacted passengers indemnification for these inconveniences. Examples of indemnification that may be offered by an airline include vouchers for meals or lodging, upgrades to non-coach travel, and credits toward future flight costs. State employees are authorized to accept such indemnification if the travel inconvenience was imposed by the airline and there is no additional cost to the state.

**Airline Cancellations** - Penalties and charges resulting from the cancellation of airline reservations (or other travel reservations) shall be the institution’s obligation if the employee’s travel has been approved in advance and the cancellation or change is made at the direction of and for the convenience of the institution. If the cancellation or change is made for the personal benefit of the employee, it shall be the employee's obligation to pay the penalties and charges. However, in the event of accidents, serious illness, or death within the employee’s immediate family, or other critical circumstances beyond the control of the employee, the institution will be obligated to pay the penalties and charges.

**Airline Departure and Return** - When traveling by common carrier to conduct official State business, employees traveling to their destination earlier than necessary and/or delaying their return to avail the institution of reduced transportation rates may be reimbursed subsistence for additional travel days if, in the opinion of the appropriate authority, the amount saved in transportation costs due to the early and/or delayed travel is greater than the amount expended in salary and additional subsistence. Prior approval by the Finance Department is required.

**Reservations** - Airline reservations can be handled by American Express Travel Services. Many travel agencies now charge fees (usually around $35) for issuing tickets. These fees, if reasonable, are part of the cost of travel. Employees may, therefore, be reimbursed for such costs.
Travel agencies used for making travel arrangements should not be related to the employee making, authorizing, or approving the arrangements. The travel agencies should also not be related to the employee actually traveling. A "related" party would include any members of the employee's family or any organizations in which the employee or his/her family members have a financial interest. The purpose for not using such travel agencies is to maintain the institution's integrity in financial matters. It is important that the actions of all State agencies be above reproach.

**Travel by Railroad** - State agencies may reimburse employees for the actual cost of rail transportation, provided the appropriate personnel authorized the travel expense in advance. Employees traveling by rail are encouraged to obtain the lowest possible fare. This is not a statewide contract for transportation by rail.

**Mass Transportation** - Transportation by bus, taxi, or airport van will be reimbursed between the individual’s departure point and the common carrier’s departure point; between the common carrier’s arrival point and the individual’s lodging or meeting place; and between the lodging and meeting places if at different locations. It is expected that airport vans will be utilized when available, when arrival or departure is during daylight hours, and when they are the lowest cost alternative. Although receipts are not necessary for such items of transportation, a point-to-point explanation is required for each such item reimbursed.

**Required Documentation of Expenses** - All travel by rented or public transportation must be recorded on the employee travel expense statement. Employees requesting reimbursement must submit receipts for travel by commercial air carrier or railroad and for the cost of rental vehicles. Although receipts are recommended, employees are not required to submit receipts for travel by mass transportation, taxi, or airport vans. However, a point-to-point explanation is required for each item reimbursed. All transportation expenses should be itemized on the employee travel expense statement.

**Private Aircraft**

Use of personal aircraft (owned or leased) will be authorized only after a careful analysis of the distance, timeliness, and overall cost factors of a trip have been considered. Reimbursement for the most economical mode of transportation, consistent with the purpose of the travel, will be authorized. If a private aircraft is used, reimbursement will be at the rate authorized for use of a personal vehicle ($0.505 per road mile) for the most direct route from the employee’s residence or headquarters to the destination point(s), whichever is nearer.

**MISCELLANEOUS EXPENSES**

**Registration Fees** - Registration fees required for participation in workshops, seminars or conferences which an employee is directed and/or authorized to attend will be allowed when supported by a paid receipt or copy of a check showing payment. Any part of registration fees applicable to meals will be reported as a meal expense and not as a registration fee, if the costs can be separately identified. Registration fees may be prepaid. A payment request and two copies of the registration form must be submitted with the Prior Approval for Travel.

**Baggage Handling Services** - Employees may be reimbursed for expenses associated with baggage handling services when an expense is actually incurred in moving luggage into or out of lodging places, common carriers, and/or airports, and when such expense was necessary. Employees should not be reimbursed for such expenses when they choose to use baggage handling services as a convenience to them.
Telephone/Telegraph/Fax Expenses - Expenses for official business telephone, telegraph or facsimile messages which must be paid for by the traveler are allowed. Personal calls made while on travel status are not reimbursable.

Stationary/Supplies/Postage Expenses - Expenses for stationery, supplies, and stenographic or duplicating services may be allowed if reasonable. Postage expense incurred relative to travel will be allowed. Claims should be explained on the travel reimbursement statement. Receipts or invoices should accompany the travel expense statement.

Unallowable Expenses - The following expenses are not reimbursable unless specific legal authority has been established: Laundry; Tipping for hotel concierge or maid service; Valet service for parking, when self-parking options are available; Theater; Entertainment; and Alcoholic Beverages.

REIMBURSEMENT PROCEDURES

Responsibility for appropriate audit, approval, and reimbursement of Travel Expense Statements is vested in the Executive Vice President for Financial and Administrative Affairs or designated representative of the institution. Georgia Perimeter College Finance personnel will process completed and approved travel statements in an expeditious manner. Reimbursement for local travel mileage will be processed the 20th of each month. All other claims for reimbursement will be processed weekly. Each Travel Expense Statement must be approved by the employee’s supervisor before submission to the Budget Office.

In cases where the prior approval denotes a pre-authorized amount, reimbursement will not exceed this authorization unless specifically approved by the department manager. Travel expense statements cannot be resubmitted at a later date or at year-end for additional reimbursement.

The travel expense statement must be submitted to Finance within 60 days of the trip. Due to year-end closeout procedures, a specific date will be established during the last quarter of the fiscal year. Travel expense statements received after the designated date will not be subject to reimbursement in the current fiscal year. Travel Expense Statements received after the cutoff date will be charged to the subsequent fiscal year.

Forms for travel reimbursement shall be the standard forms approved for use by the University System. All forms, Prior Approval for Travel, Travel Expense Statement, Payment Request, and the Tax Exemption Certification are available on GPC Travel Information web site. No other forms will be accepted.
Travel Procedures, Section 7.2

There are three forms used in connection with the preparation and processing of travel:

1. Prior Approval for Travel Authorization
2. Travel Expense Statement
3. Payment Request

PRIOR APPROVAL FOR TRAVEL AUTHORIZATION

It should be noted that trips are not authorized until this form is properly approved. A specific authorization is required for each trip with the exception of local travel. Local travel will be defined as day-to-day trips within the metro Atlanta area that do not require registration fees. Local travel will be approved on an annual basis.

The format of the form is self-explanatory. The form must be completed in its entirety, with all required approvals, ten working days prior to the anticipated travel. Note that the account number of the department must be added to the upper right corner of the form. Travel expense will be charged to Account Code "640100", local travel 640500, whereas the payment of registration fees will be charged to "727130".

Upon returning from a trip, the employee should submit a completed Travel Expense Statement to the departmental budget manager. The departmental budget manager should review the expense statement for accuracy and compliance with travel regulations. If the statement is in order, the form should be signed and forwarded to the Budget Office, Decatur Campus.

TRAVEL EXPENSE STATEMENT

This form is to be completed by the individual traveler. Reimbursement to an individual may cover only those expenses pertaining to that individual; it may not include expenses pertaining to other individuals regardless of who paid the expense. Each individual must request his or her reimbursement. In cases where the prior approval denotes a pre-authorized amount, reimbursement will not exceed this authorization unless specifically approved by the department manager. Travel expense statements cannot be resubmitted at year-end for any additional reimbursement.

The travel expense statement must be submitted to the Budget Office within 60 days of the trip. Due to year-end closeout procedures, a specific date will be established during the last quarter of the fiscal year. Travel expense statements received after the designated date will not be subject to reimbursement. All receipts and paid bills must be original. Employees are required to sign their travel expense statements, attesting that the information presented on the form is accurate. Employees who provide false information are subject to criminal penalty of a felony for false statements, which is subject to punishment by fine of not more than $1,000 or by imprisonment for not less than one nor more than five years.

Forming New Organizations

Guidelines for Writing a Constitution

Preamble: Optional preface to the constitution which usually contains reasons for formation of the club/organization.

Constitution: Consists of a few fundamental provisions clearly and briefly written. There are at least seven provisions usually stated in separate articles. Each article may be divided into sections. The articles are as follows:

Article I: Name - State the official name of the organization.

Article II: Purpose - State the purpose or goals of the organization. The purpose or goals may be identified through a definition or organizational affiliation to academic, cultural, service-oriented, political, religious, etc. The group should not duplicate the ideals of an existing student organization. Be sure to identify any local, regional, or national affiliations with any other groups and clearly identify how the club/organization supports with the Georgia Perimeter College’s vision and mission.

Article III: Membership - Define eligibility requirements of members inclusive of membership renewal, removal, voluntary discontinuance of membership at any time, paying dues, and GPA requirements, etc. Membership may only be open to Georgia Perimeter College Students and must be open to all qualified registered students. Membership must include a statement “…… the organization will not discriminate on the basis of race, creed, religion, color, age, sexual orientation, disability, veteran status, marital status or nation origin”. Article II must also include guidelines to ensure the organization membership will not practice physically or psychologically abusive hazing behaviors—either intentionally or unintentionally.

Article IV: Officers, Duties, and Requirements - Describe the governance structure. Is there an executive board? Do officers take an oath of office? State the duties of officers (schedules meetings, determines agendas, approve expenditures, etc.). In compliance with the College’s club officer requirements, a statement of good academic standing must also appear in this section.

Article V: Meetings - State approximately how often meetings can be held. Identify who has authority to call meetings. State what number is required for a meeting’s quorum (if appropriate). Identify standing rules for running a meeting i.e. parliamentary procedure, etc.

Article VI: Elections and Officer Replacement/Removal - State how the officers will be elected, appointed, removed or replaced. State what justifies removal. It is strongly suggested that elections be conducted by democratic procedures. State the time line for elections.

Article VII: Judicial Action (Optional) - State the process for disciplining members of the organization.

Article VIII: Finances - State how the organization will be funded (dues, outside sources, SGA).

Article IX: Advisor - State the process for selecting and removing an advisor. Advisors must be Georgia Perimeter College faculty or professional staff members located on the campus where the club is organized. State whether the advisor is a voting or non-voting member. The Director of Student Life reserves the right to remove and/or appoint organization advisors.
Article X: Amendments/Revisions - State the procedures for amending and revising the constitution (posted notices of amendments for two weeks prior to vote, placing an amendment of the floor for two weeks, etc.). State who may propose an amendment and outline the process.

Article XI: Enabling Clause - This must appear at the end of the Constitution: The (name of the organization) agrees to abide by the policies of Georgia Perimeter College as well as all federal, state and local laws. The Constitution and any revisions or amendments must be approved by the Student Life Office prior to implementation.

By-Laws: Contain details necessary to amplify and carry out the provisions of the constitution. All by-laws dealing with the same general subject are grouped together under an article. For instance, there are usually several sections relating to committees. These sections are arranged in consecutive order and together form a by-law or article. By-laws may include the following: Types of Membership; Election of officer/committees; Detailed requirements for membership; Provisions for calling and conducting meetings; Method of admitting new members; Parliamentary authority; Dues; Number of constituting a quorum; Powers/duties of committees; Vote required for decisions; Powers/duties of officers and Procedure for amending by-laws.
